First class clinical trials service

We obtained a manufacturing & importation licence for IMPs in 2004 – since then, our experienced pharmacists and technicians have worked closely with our experts in clinical pharmacology on hundreds of clinical trials.

We offer:

- Dedicated champion for each trial
- Expert advice during development of the CTA application, and beyond
- Rapid set up
- Complete flexibility:
 - ✓ collaboration with your experts to develop, refine, and test small-scale production methods
 - ✓ bespoke trial service
 - ✓ round-the-clock pharmacy cover
- Full integration with our clinical services

HMR pharmacy services

- Importation of IMP into EU
- Manufacture of IMP for other clinical trial sites
- Randomisation, repackaging & relabelling
- Manufacture of bespoke capsules
- Solutions, suspensions & semi-solid formulations
- Aseptic preparation
- Radiopharmaceuticals (including aseptics and microdoses)
- Sterilisation by filtration
- Over-encapsulation of tablets & capsules
- QP batch certification
- Sourcing of comparators & non-IMPs
- Retention samples
- Certified IMP destruction

Facilities

- 2 aseptic manufacturing suites
- Radiopharmacy aseptic suite, incorporating QC testing by liquid scintillation counting
- 2 dedicated non-sterile manufacturing facilities
- Secure, temperature-controlled storage
- Continuous environmental monitoring, with integrated alarm

Quality assured

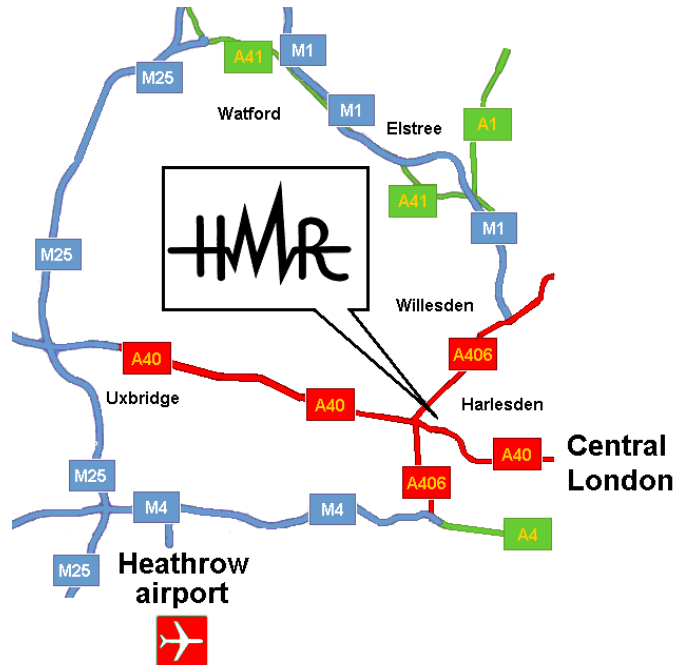

- GMP compliant
- Stringent quality control
- Independent quality assurance

Accreditations

- MIA(IMP) licence 15140
- Manufacturer's 'Specials' licence
- Home Office licence to supply and possess controlled drugs, schedules 2, 3, 4.1 and 4.2
- HM Revenue & Customs authorisation to receive duty-free solvents
- Registered with General Pharmaceutical Council
- ISO 9001 (2008)
